

BRITISH MOTOR INDUSTRY HERITAGE TRUST ARCHIVE SERVICES FOR CLASSIC CAR OWNERS

The British Motor Industry Heritage Trust is custodian of the authentic historical records created by the many manufacturers which have made up the British motor industry over the years. These include a vast range of ORIGINAL FACTORY LEDGERS which record the details of individual vehicles as they came off the production line. Discover a new dimension to owning a British classic by purchasing one of the many archive products which draw on these records.

HERITAGE CERTIFICATE

Simply provide a chassis number and we will look up the details of your vehicle in the original ledgers and issue an official 'Certified Copy of a Factory Record', more commonly known as a Heritage Certificate. This can be helpful when applying for tax exemption or to obtain an age-related Registration Mark.

PREMIER CERTIFICATE

Upgrade to the Premier Certificate, which includes all the information provided on a Heritage Certificate and also incorporates a photograph of your car, provided by you.

HERITAGE DOCUMENT WALLET

A PVC wallet designed to complement your Heritage or Premier Certificate. Not only is this the perfect way to keep all your important documents safe, it also contains a:

- sales brochure (loose-leaf A4 colour copies)
- digital A5 photographic print of an original publicity shot of the model from the relevant period

ASTON MARTIN FOLDER

A premium quality leather folder especially for Aston Martin owners. In addition to the sales brochure and publicity print, contents include:

- a facsimile of the original build card subject to availability (previous ownership information removed due to data protection legislation)
- a personalised card with the current owner's name and chassis number

TECHNICAL SPECIFICATION

Detailed technical information to assist with import/export regulations.

Please turn over for a detailed list of models for which records are available

HISTORIC PHOTOGRAPHS

The archive also contains an extensive collection of fabulous archive images. A wide selection can be viewed at www.motorgraphs.com. Prints can be purchased online, or simply browse through almost 3000 pictures to take a nostalgic trip down memory lane.
